

CITIZENS COINAGE ADVISORY COMMITTEE

801 9TH STREET, NW
WASHINGTON, DC 20220

November 21, 2024

The Honorable Janet Yellen
Secretary of the Treasury
Department of the Treasury
1500 Pennsylvania Avenue, NW
Washington, DC 20220

Dear Madam Secretary:

The Citizens Coinage Advisory Committee (CCAC) held a public meeting on November 19, 2024, during which we reviewed the candidate designs for the proposed Liberty Bell Non-Round Coins and Medals.

At our public meeting, the CCAC reviewed the portfolio and following a robust discussion on the merits of the program and the designs scored the obverse and reverse candidate designs. Following the scoring, separate motions were made to recommend the obverse candidate designs, and then the reverse candidate designs for the one-ounce gold (\$250) and the half-ounce gold (\$125) coins, and the silver medal.

Obverse candidate designs LB-O-01-Medal and LB-O-03 received the highest scores 14 and 18 respectively out of a possible 30 points. By a motion that passed with seven in favor and two abstaining, the CCAC recommends these obverse candidate designs. For the one-ounce gold coin, reverse candidate design LB-R-01A received the highest score of 17 out of a possible 30 points. By a motion that passed with seven in favor one opposed, and one abstaining, the CCAC recommends this reverse candidate design. For the half-ounce gold coin, reverse candidate design LB-R-03-Half A received the highest score of 14 out of a possible 30 points. By a motion that passed with seven in favor one opposed, and one abstaining, the CCAC recommends this reverse candidate design. For the silver medal, reverse candidate designs LB-R-01-Medal received the highest score of 14 out of a possible 30 points. By a motion that passed with seven in favor one opposed, and one abstaining, the CCAC recommends this reverse candidate design.

On a subsequent motion that passed unanimously, the CCAC also recommends that the one-ounce and half-ounce gold coins be produced in two easily distinguishable sizes to differentiate the two coins.

It is an honor to serve as the Chair of the CCAC and I am proud of the CCAC's role in the production of United States coins and medals.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter van Alfen", written in a cursive style.

Peter van Alfen, PhD, CCAC Chair
